tables. chairs. dance floor.

Our specialty serpentine tables and buffet tops make the perfect finishing touch for any formal occasion! Each serpentine table creates ¼ of a complete circle. Joining them together can create a circle with an empty space in the middle or join them to create a curved buffet table set up. Inner and outer buffet table top risers are an additional option and come with black laminate and black edge. We offer many different size, leg and top finish options in our specialty serpentine tables!
