

WALS™ are high-quality, portable lightweight acoustic walls that can easily be positioned to create private areas within a larger open concept space. WALS™ not only provide visual privacy but also help control noisy environments through the use of our patented Revolution® core technology. WALS™ are made of a proprietary lightweight composite core wrapped in layers of acoustic materials. This carefully studied stacking of materials provides optimal acoustic dampening in a panel that is remarkably thin. WALS™ are strong and stiff but incredibly light and easy to roll in and out of any space.

STYLE	MODEL NUMBER	WEIGHT & DIMENSIONS	FABRIC GRADE	LIST PRICE
 <p>WALS™</p>	WALS-FEL##-H##-W##	39 lbs 38"L x 68"H x 1"W	GRADE 1: Bio-Felt	\$1,590
	WALS-CNH##-H##-W##		GRADE 2: Carnegie – Hashtag	\$2,210
	WALS-COM##-H##-W##		COM FABRIC	\$1,385
 <p>WALS-X™</p>	WALSX-FEL##-H##-W##	49 lbs 62"L x 68"H x 1"W	GRADE 1: Bio-Felt	\$2,545

	WALSX-COM##-H##-W##		COM FABRIC	\$2,160

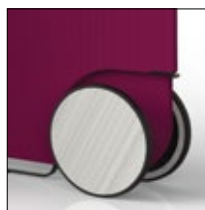

**FEATURES**

- Standard covering materials include:
  - GRADE 1: Bio-Felt
  - GRADE 2: Carnegie – Hashtag
  - COM Fabric: See page 60 for details
- See page 60 for all fabric & finish options
- Wheel to wheel = 13.25" W
- WALS™ (single panel model)
  - 38"L x 68"H x 1"W / Weight 39 lbs
- WALS-X™ (hinged panel model)
  - 62"L x 68"H x 1"W / Weight 49 lbs
  - 270° hinge

**WALS-X™**

Hinged panel turns 90 degrees in either direction to offer variety of shaped spaces. It also folds flat for easy transport and storage.

**WHEELS**

The wheels come in many color options and standard with no rubber tire. Add the rubber tire to your wheels (-T) for \$75 List.

**ACOUSTICS**

Specific material arrangement has been tested to provide both sound absorption and sound blocking characteristics.

**HANDLE AND FOOT**

Metal Handle and Foot are both integrated in the structure for stabilization when moving.
