

# HOW TO CARE FOR HEALTH & SAFETY PRODUCTS

Type of Material	Recommended	Not Recommended
<p><b>Wood Surfaces</b></p>	<p>Use a clean damp non-abrasive lint-free or microfiber cloth, immediately wipe off any moisture with a dry non-abrasive lint-free or microfiber cloth.</p> <p>Cleaning Agents:</p> <ul style="list-style-type: none"> <li>• Pledge Furniture Polish</li> <li>• Endust Cleaning &amp; Dust Spray</li> <li>• Scott's Liquid Gold</li> <li>• Old English Furniture Polish</li> <li>• Behold Furniture Polish</li> <li>• Murphy's Oil Soap / Spray Formula</li> <li>• Kleen Guard Furniture Polish</li> </ul>	<p>Washing wood with soap and water may cause harm to the wood and/or the finish. The finish may become lusterless and lose some of the sheen.</p> <p>Do Not Use:</p> <ul style="list-style-type: none"> <li>• Lemon Oil</li> <li>• Chlorine</li> <li>• Bleaches</li> <li>• Ammonias</li> <li>• Windex</li> </ul> <p>any solvent based cleaning or polishing products. Cleaning products with high concentrations of lemon oils.</p>
<p><b>Acrylic and High Pressure Laminate Surfaces</b></p>	<p>Use a mild soap with a clean damp non-abrasive lint-free or microfiber cloth, wipe off any soap residue and moisture with a soft non-abrasive lint-free or microfiber cloth.</p>	<p>Do Not Use any solvent based cleaners, chemicals or any abrasive cleansers or pads; Exposure to anything with excessive heat over 100C; Soaking not recommended.</p>
<p><b>Countertops: Trend, Corian, Avonite and other hard surfacing materials</b></p>	<p>To clean use a mild soap with a clean damp non-abrasive lint-free or microfiber cloth making sure to wipe off any soap residue and moisture.</p> <p>DO NOT USE: Solvent based cleaning or abrasive cleaners or pads. Nicks and scratches can be repaired by a qualified Avonite Surfaces Fabricator. Please refer to Avonite's Care and Maintenance section on their website: <a href="http://www.avonitesurfaces.com">www.avonitesurfaces.com</a></p>	<p>Do not place any hot pans directly on surface. Avoid direct steam exposure. Keep surface free of moisture. Keep unit out of direct sunlight for extended periods of time. Don't use cutting utensils directly on surface. Avoid impact to surface. Anything harder than the countertop (i.e. ceramics, stoneware, stainless steel and glassware) may scratch the surface.</p>

# HOW TO CARE FOR HEALTH & SAFETY PRODUCTS

Type of Material	Recommended	Not Recommended
<p><b>Stainless Steel</b>  <i>It is possible to get some minor surface contamination on brushed stainless finishes as moisture can collect in the 180 grit finish and cause a reaction with the iron in the stainless steel.</i></p>	<p>To clean use a mild soap with a clean damp non-abrasive lint-free or microfiber cloth making sure to wipe off any soap residue and moisture. <i>(It is recommended that anyone in an ocean front or high humidity environment who desires maintenance free carts go with Polished Stainless, as it sheds moisture much better. Surface contamination on brushed stainless is easily removed with Flitz polish and a soft rag)</i></p>	<p>Do Not Use any solvent based cleaners or any abrasive cleansers or pads.</p>
<p><b>Powder Coat Epoxy Finish</b></p>	<p>To clean use a mild soap with a clean damp non-abrasive lint-free or microfiber cloth making sure to wipe off any soap residue and moisture.</p>	<p>Do Not Use any solvent based cleaners or any abrasive cleansers or pads.</p>
<p><b>Plastic Surfaces</b></p>	<p>To clean use the following:</p> <ul style="list-style-type: none"> <li>• Mild soap solution (eg, 5% Ivory flakes in water)</li> <li>• Mild detergent solution (eg, 3% Tide in water)</li> <li>• Household ammonia</li> <li>• 25% isopropyl alcohol (isopropanol) in water</li> <li>• "Simple Green" (diluted 1:10) if it is rinsed off promptly</li> <li>• Turtle Hot Wax Protect All</li> <li>• GM OptiKleen window wash (diluted)</li> <li>• Mineral spirits</li> <li>• Stain-Trine (Applied Biochemists, Mequon, WI) for mineral deposits .</li> <li>• Speed Clean 100 (Applied Biochemists, Mequon, WI)</li> <li>• Baking Soda (A gentle but effective abrasive for removing surface marks.)</li> </ul>	<p>Do Not Use any solvent based cleaners or any abrasive cleansers or pads. Solvents such as MEK and Toluene, or Citrus or Pine based cleaners &amp; disinfectants such as Lysol and Pine Sol should be avoided and not stored near the cart.</p> <p>Also Do Not Use</p> <ul style="list-style-type: none"> <li>• Concentrations of isopropanol greater than 25%</li> <li>• Most solvents including alcohols, esters and glycol ethers</li> <li>• Sherwin Williams' Aqua Mate</li> <li>• Vandal Mark Remover</li> </ul>
