## PLYWOOD TABLES

Palmer Snyder's solid plywood tables deliver the highest ROI in the event industry and are MADE IN THE USA! They are built to withstand years of demanding use. We use carefully selected, quality plywood with solid, hardwood runners to ensure exceptional durability. Every table has their "Birth Year" stamped on the bottom so that you know exactly how long it has been in your fleet. If you see a Palmer Table without a date stamp, it was manufactured before 2008!

Choose between black vinyl Bullnose edge or aluminum C-Channel edge for added extra edge and corner protection.

Legs are cut, bent, welded and triple-layer, zinc-plated in the USA for the longest-lasting, lowest maintenance legs in the industry.

Solid Appalachian hardwood runners, through-bolted to carefully selected exterior-grade plywood for unparalleled strength.

# MADE IN THE USA SINCE 1919

Palmer Snyder is proud to announce that we are now a 100% employee-owned company. This transition strengthens our legacy of American manufacturing and ensures that the people who build and ship our products are directly invested in the quality and durability our customers rely on.

We've come a long way since the Snyder Chair company began making Appalachian hardwood folding chairs in 1919. But we've always stayed true to our roots. We strive to manufacture furniture to deliver the highest ROI in the industry.

Most of our manufacturing is still done in Conneautville, PA with an expanded and modernized factory and sales associates all over the U.S. We are proud of our heritage, our people, and our products. Thank you for your interest in Palmer Snyder!
